Advance Random Routes East program to reduce international dept delays			01/01/2009 - 04/30/2012	
Project Initiative	Description	Status	Start	Finish
Advance Random Routes East program to reduce international dept delays	Similar to a procedure for westbound traffic, agreements need to be established with international air traffic service providers to allow random routes in the eastbound direction to segregate traffic and reduce departure restrictions.	Random Routes East Test (RRET) was extended for another 6 months (Mar 31, 2012) in order to collaborate with stakeholders and standardize the processes, procedures and incorporate efficiencies into the operation.	01/01/2009 A	04/30/2012

This action plan is intended to establish a climate of accountability for the FAA, airports, and airlines. No project will be implemented prior to the completion of all required analysis, reviews and approvals. The information provided is for planning purposes only. For actual Runway and Taxiway Closures, and Equipment Outages, please review current Notices to Airmen (NOTAMs).
